Crafty Ways to Solve Genealogical Problems

Crafty Ways to Solve Genealogical Problems. Have you hit the proverbial road block in your genealogical research? Is an ancestor or two eluding you? This workshop will help you learn crafty ways to succeed in finding new evidence and avoid common pitfalls. Learn some solid strategies and ways to take a fresh look at what you've tried and what else you can do to find those pesky hidden ancestors. Please feel free to bring a problem for us to discuss and to bring your lap top computer to class if you have one.

Presenter: Carol P. McCoy, Ph.D. (psychology) is president of Find-Your-Roots.com, and has been solving genealogical problems for over 25 years. As past president of the Greater Portland Chapter of the Maine Genealogical Society, she has been leading a project to index early land deeds of Cumberland County, Maine. She has been an adjunct faculty in Boston University's intensive Genealogy Certificate Program. A popular and entertaining speaker and coach, McCoy enjoys helping others build their skills. Visit www.find-your-roots.com for more information.

Date: August 21, 2010
